

Message from the Campus Director's Desk

**Dr. SAMUEL PAUL ISAAC
CAMPUS DIRECTOR
KRUPANIDHI GROUP OF INSTITUTIONS**

Let me begin by extending a warm welcome to everyone who is interested in becoming part of the Krupanidhi family. The Krupanidhi Trust, a Christian organization, began its successful journey in the year 1985 with a view to provide top quality education to the young bright minds of the country.

Today, the umbrella of institutions under the Krupanidhi Trust includes a Pharmacy college, a Physiotherapy College, a Nursing College, a business school, a degree college, a pre-university college, a residential PU college & an International School under its wings. A dream that started out as a small single structure in Koramangala 30 years ago is now a multicultural, multiethnic institute with an 11-acre campus and more than 6000 students from 20 countries studying at Krupanidhi.

Krupanidhi College has a vision – “We don't just polish stones, we carve them & make monuments out of them” We at Krupanidhi create the leaders for tomorrow, whether it is in the field of healthcare, the world of business, Information Technology or in the commerce industry. We cater to the teaching and studying needs of students ranging from kindergarteners to postgraduates and even doctorates. The various institutes of Krupanidhi have world class facilities on the campus with excellent atmosphere and world-class ambience. Apart from sophisticated classrooms, the campus houses a fitness centre, a multi cuisine food court, boys and girls hostels, and also has free bus and van shuttle services for the students to travel to and back from the city. Our college campuses are conducive to the development of young minds, overall development of the students, and designed to ensure, academic excellence for each and every student and is comparable with the best in the world.

The faculty of the many departments at Krupanidhi is handpicked to take specialized and personal care of even the average student, and not just the bright ones. Larger lessons are broken down into modules, with each module having its own viva and test, and students are not allowed to proceed to the next module until they score a minimum of 80% for the current module. This system ensures that students are not only stress-free and comfortable but also better prepared when they take their final exams for the academic year.

Our colleges are a microcosm of the world. We have students from over twenty countries from different ethnicities, religions and backgrounds speaking different languages. We provide a secure and open environment that is a catalyst for these young minds to flourish and flower to their full potential. Language classes are specially held for the institutions' foreign students and other students who find English a challenge to work with. The classes are conducted before the courses begin so as to ensure that the students are able to comprehend lessons as they are being conducted and keep pace with the rest of the class.

We are dynamic. We are a work in progress. Our objective is to keep pace with the rapid evolution, and our endeavour is to bring the same to our classrooms. We see the coming years as an interesting environment for students to be entering the industry, and we aim to prepare them so that they are ready for any challenges that they might face. With our futuristic design and the unique academic space, we at Krupanidhi guarantee that we will fulfill all your dreams and that you will remember the day you chose Krupanidhi College with nothing but sheer love and warmth.

Wishing you all the very best in all times to come,

Dr. Samuel Paul Isaac
Campus Director

For I know the plans I have for you,” declares the LORD, “plans to prosper you and not to harm you, plans to give you hope and a future. Jer 29:11

AWARDS & ACCOLADES

"Krupanidhi School of Management awarded Best Business Management College in Bengaluru"

Krupanidhi School of Management has added one more feather in their cap. They are awarded in Global Education Excellence Awards, 2015 as a "Best Business Management College in Bangalore", an initiative of Prime Time research media Ltd. The award is a gesture from Prime Time to recognize the success and excellence of the Educational institutions, and the awarding organized on March 30, 2015 in New Delhi. *Krupanidhi school of management received award because of its innovative teaching methods, regular industrial interface, modern adaptation of gurukul system, finishing school, and its prospectus contains only worth and value added courses.*

The award was given to Dr. Suresh Nagpal, Chairman of Krupanidhi Group of Institutions by former Cricketer & Hon'ble Member of Parliament, Sri Kirti Azad. Acknowledging the award, Dr. Suresh Nagpal, said, *"Innovation and leadership are the keys to the future. This award is a true reflection of the hard work put in by the teachers and staff at Krupanidhi Group of Institutions".*

ACCOLADES

Krupanidhi Group of Institutions is a multiple award-winning institution, with a national reputation for excelling in many diverse educational fields. The college is affiliated to various national universities and academic institutions including the Rajiv Gandhi University of Health Sciences, Mysore University, and Bangalore University. The ISO 9001–2008 certified institution is recognized by the Government of Karnataka, is approved by UGC and AICTE, New Delhi, and is accredited by NAAC. The institution is a member of the European Council of Business Education. Krupanidhi is also affiliated to various national organizations including the Pharmacy Council of India, the Indian Nursing Council, New Delhi, the Karnataka Nursing Council & the Association of Physiotherapists.

Krupanidhi Group of Institutions, its faculty and its students have won many awards and accolades in various fields. At the prestigious WCRC leaders Asian Education Excellence Summit and Awards ceremony in 2012–13, Krupanidhi College received honours of 'Asia's Fastest Growing Private Education Institute' in the Business Schools category. The process advisors and evaluators for the survey were KPMG. The business school of Krupanidhi has also been ranked as one of the best upcoming B-schools in Bangalore by Brands Academy Consultancy and has been ranked 5th in a 'Top 10 Placement Survey' conducted by Silicon India. The institution also received the awards for 'Educational Institution with the Best Infrastructure' and 'Educational Institute with Best Academic and Industrial Interface' from the World Education Congress in the year 2013. The institution's pharmacy college has also been ranked as the 'Best Pharmacy College' in the state of Karnataka by The Week Magazine.

The leadership of Krupanidhi College Chairman and educationist Dr. Suresh Nagpal has also won many awards for his contribution to the field of education, inspiring the faculty and generations of students. Dr. Suresh Nagpal, known as the inventor of the modern Gurukul system, has been the recipient of the Kempegowda Award and the WCRC Academic Visionary Award in 2014 for excellence in educational innovation and leadership in 2014. He was awarded the Vidya Ratna Award by the World Peace Council and the Mother Teresa Award in 2004, as well as the Distinguished Alumni Award from the College of Pharmaceutical Sciences Manipal in 2002. The faculties of the college, too, have received awards for their research work and teaching.

We at Krupanidhi strive for excellence, which is evident from the many awards and accolades that the college has garnered over the years.

LABORATORIES

If there is one thing that the student communities across the world would agree, it would be about how monotonous learning theory alone can be. Students are constantly bombarded with the information and would feel cramped. The world is a playground for children who constantly imbibe things from the objects around them. While this `learning through playing` cannot be adapted literally in the case of college students, the laboratories in Krupanidhi can be closely compared to the playground as the students are welcome to test their theory under the close guidance of our expert teachers and lab faculty. We believe in the Gurukul system and our laboratories can be compared to the play area in your house.

Krupanidhi College has dedicated laboratories for various disciplines. The Department of Pharmacy has more than 18 state-of-the-art laboratories which are designed along international lines. The nursing college has 8 laboratories in total including an advanced laboratory, a computer laboratory, a nutritional laboratory, a child health nursing laboratory to name a few. We also have a dynamic audio-visual aids laboratory which ensures that each student is involved.

LABORATORIES

Laboratories play a crucial part in cementing any novel idea they have learnt and these spacious, student friendly labs persuade them to experiment theory and work around new concepts. The college is also affiliated to various multi specialty hospitals around the city so as to provide clinical settings for their students to experience. The students are even sent to rural and other community postings just around 3–5 kms away from the campus, giving them exposure to real world clinical settings. The department of Physiotherapy has an out-patient clinic within the campus, where the students get hands-on practice with the patients who visit the clinic.

FITNESS ZONE

"A healthy body houses a healthy mind" goes the old age adage. With students as well as the college taking health and activeness seriously, the administration has made sure that it does its bit for the students and has established a huge, ultra-modern gym on the campus. The gym not only motivates students to be active and to lead a balanced lifestyle but also encourages students to indulge in serious fitness and bodybuilding.

State-of-the-art fitness center and the physical fitness trainer on board for extensive training ensures that the students have all that they need when it comes to staying fit while they are part of Krupanidhi family. The fitness center also houses extensive and expensive fitness training equipment by Techno Gym (Italy), which students have complete access to. Students at Krupanidhi can use the fitness center by paying a subsidized subscription fee.

STUDENT COUNSELING

College life though is portrayed as a carefree one, is fraught with issues which can directly affect the mental well being of the student who is in a very vulnerable age. Thankfully, gone are the days when a person's mental health was seen as a mark of strength and overall ability. College students are constantly worrying about their choice of career, personal life, competitive outside world, and how they are perceived by their peers to name a few. This is by far the most sensitive time in their life which also has far reaching effects on them as an adult too.

Krupanidhi College does not see students as mere students but as young adults who would need expert guidance in times of need. We have a counseling centre which is open during college hours and our top notch counselors do not see this as a mere job and are available any time any day imparting wisdom and best ways of dealing with issues the students are troubled with. The Counseling Centre is an integral part of the college and the students, the teachers and the parents have the liberty to walk in whenever they want to discuss how best to deal with the issues in hand.

Considering how the issues are unique from student to student, there is no set way of dealing with it, but rest assured our counselors are the best in the field and in serious, life threatening scenarios would interact with the respective parents to chart the best way forward. Each and every session will be confidential and would not be disclosed to anyone unless we need parental interference. Apart from this, students are often given career counseling too.

FINISHING SCHOOL

At Krupanidhi we realise that students need to be prepared to enter the workforce, nascent and blooming into adult life as they are. Recognising this critical need Krupanidhi's finishing program gives its students, who are bubbling with energy and excitement to take on the world, a final touch of polish, making them complete and ready for the working world. Krupanidhi's concept of a finishing school is more than just etiquette and charm; it's about making the students employable in the dynamic industry of today. Through its structured and practical program, Krupanidhi aims to increase the industry-readiness of graduates as well as their productivity, to bridge the gap between the education sector and the industry and to create synergies between them, and to ensure that a higher pool of industry-ready students is available for recruiting. We at Krupanidhi are proud of this one of a kind program.

SPORTS

When it comes to sports and extracurricular activities, the Krupanidhi Group gives equal prominence and importance to it as much as they do to academics. The college has extensive sports facilities for many sports right from volleyball, basketball, and badminton to football and the all-time-favourite cricket. Evenings see a flurry of activity on the grounds of the college with students playing various sports and many even enjoying as an interested audience. There is also an on-campus basketball court for the students to develop their talent. There are many sports clubs for different activities too, and they see active participation from the students and encouragement from the college faculty.

Apart from sports, the college also encourages and motivates its students to participate in many extracurricular activities. The college has many cultural clubs and societies such as the hobby club, the literary club, the IT club, NSS clubs, cultural clubs, and musical bands. The college also has developmental cells such as the Women's Development Cell, as well as academic clubs.
