ABOUT THE CONFERENCE

FUTURE OF WORK: AUTOMATION AND WORKFORCE RE-SKILLING

The global era of professionalism, quality and standardization has paved the way for the re-discovery of methods of offering the best products and services to the markets and consumers. The patterns of processes, procedures and performances have all faced the challenge of time and are faced with disruptions and turbulence that must be harnessed with strategic planning, business foresight and technological input which collaborate to the continued success and growth.

Delegation, Decentralization and Directives have been reinforced with modern advantages of Digitalization, Demonstration and Dynamism leading to innovation, efficiency and amalgamation of resources to achieve the goals. The fast paced demands and quick turnovers have led to mechanization, technical advancement and automation which is the need of the hour, which speed up and lead to standardized outcomes.

Human elements contributing to the work, are challenged with new techniques of performance and accomplishments. The workforce is challenged with the trending practices and use of technology in the normal environment and this has led to the need of re-skilling the workforce to meet the challenges of their jobs and prepare them to contribute towards the augmented and exponential growth.

New approaches and new techniques must be adopted by every employee to produce efficacious results that will act as the springboard to global performance standards. This is the futuristic challenge that every organization faces – not just to retain the employees but to familiarize and train them in automation and re-skill them to meet the present and future workplace challenges. Join and participate in this International Conference on “Future of Work: Automation and Workforce Re-Skilling” and discover the strategies of tomorrow.

ORGANIZER

ORGANIZED BY

**KRUPANIDHI
DEGREE COLLEGE**
NAAC 'A' Accredited

Established in 2001, Krupanidhi Degree college is an integral part of the ever expanding Krupanidhi Educational Trust founded by Prof. Dr. Suresh Nagpal, Mrs. Geeta Nagpal and Prof. Sunil Samson Dhamanigi in 1985.

Krupanidhi Degree College provides education to empower the students to recognize and optimize their full potential to achieve excellence in academic work and develop highly skilled human resources with the perspective to enable them to adapt to an intellectually and technologically changing environment. The institution imparts quality education and helps students to equip themselves with creative, analytical and academic abilities & managerial qualities which will enable them to carve a successful career.
